- Overview

The most popular stereo amplifier from Bose® works with your Lifestyle® system - and Bose® link - to bring music to a second room of your home, even outdoors. Simply connect the amplifier to the Bose® link output of your Lifestyle® media centre with the included Bose® link cable, and then connect your choice of Bose speakers to the amplifier. With the optional Lifestyle® expansion remote control, you can choose the same musical program playing in the main room, such as a CD, or something different like FM stereo. The Lifestyle® SA-2 Stereo Amplifier is an easy and elegant solution for expanding music throughout your home.

- Specifications
- Works with your Lifestyle® system and Bose® link to bring high-quality sound to other rooms in your home.
- Bose patented signal processing circuitry delivers full, rich stereo, even at low volumes to other locations in your home.
- Enables on-location choice between two independent audio streams from a Bose® link-enabled Lifestyle® system, with a Lifestyle® expansion remote control.
- Easy to hook up and conceal.
- Room selector switches can assign multiple SA-2 amplifiers to specific rooms and specific Lifestyle® radio frequency remote controls.
- Thermal compression circuitry provides automatic protection for the amplifier electronics.
